

How Summer Tuition Works:

Our Summer Session uses a sliding tuition scale based on the total number of class hours your dancer takes each week. This allows families to build a flexible summer schedule while receiving a discounted hourly rate as training time increases.

Summer tuition reflects the full 4-week session rather than monthly billing, and is calculated by adding all weekly class hours.

For example:

If a dancer takes two 1-hour classes per week, their total weekly training time is 2 hours and the 2-hour tuition rate applies.
